- 3. 對於連通圖 G,最大獨立點集的大小設為 I(G),最 大匹配大小設為 M(G) , 最小點覆蓋設為 Cv(G) , 最小邊覆蓋設為 Ce(G)。對於任意連通圖:
  - (a) I(G) + Cv(G) = |V|(b) M(G) + Ce(G) = |V|
- 4. 對於連通二分圖:
  - (a) I(G) = Cv(G)(b) M(G) = Ce(G)

17 Вставай, проклятьем заклеймённый,
18 Весь мир голодных и рабов!
19 Кипит наш разум возмущённый
20 И в смертный бой вести готов.
21 Весь мир насилья мы разрушим
22 До основанья, а затем
23 Мы наш, мы новый мир построим, -
24 Кто был ничем, тот станет всем.
^{25}
26 Chorus
27 Это есть наш последний
28 И решительный бой;
29 С Интернационалом
30 Воспрянет род людской!
32 Никто не даст нам избавленья:
зз Ни бог, ни царь и не герой!
34 Добьёмся мы освобожденья
35 Своею собственной рукой.
36 Чтоб свергнуть гнёт рукой умелой,
37 Отвоевать своё добро, -
38 Вздувайте горн и куйте смело,
39 Пока железо горячо!
40
   Chorus
42
43 Довольно кровь сосать, вампиры,
44 Тюрьмой, налогом, нищетой!
45 У вас — вся власть, все блага мира,
46 А наше право — звук пустой !
47 Мы жизнь построим по-иному —
48 И вот наш лозунг боевой:
49 Вся власть народу трудовому!
50 А дармоедов всех долой!
```

```
Презренны вы в своём богатстве,
  Угля и стали короли!
  Вы ваши троны, тунеядцы,
  На наших спинах возвели.
  Заводы, фабрики, палаты —
  Всё нашим создано трудом.
  Пора! Мы требуем возврата
  Того, что взято грабежом.
  Chorus
63
  Довольно королям в угоду
  Дурманить нас в чаду войны!
  Война тиранам! Мир Народу!
  Бастуйте, армии сыны!
  Когда ж тираны нас заставят
  В бою геройски пасть за них -
  Убийцы, в вас тогда направим
  Мы жерла пушек боевых!
74
  Chorus
75
76
  Лишь мы, работники всемирной
  Великой армии труда,
  Владеть землёй имеем право,
  Но паразиты — никогда!
  И если гром великий грянет
  Над сворой псов и палачей, -
  Для нас всё так же солнце станет
  Сиять огнём своих лучей.
